

PURPOSE

I aim to obtain an internship or entry-level position in the field of Software Development where I can apply my academic knowledge, technical skills, and creativity. While contributing to innovative projects, I seek to further develop myself in full-stack development, user-centered design, and problem solving.

YETENEKLER

- **Programming Languages:** Java, C#, Python, Typescript, SQL, C++, HTML, CSS
- **Framework & Techs:** React, Next.js, .NET Web API, MS SQL Server, PostgreSQL, Bootstrap, Shadcn, Docker, Tailwind CSS
- **Tools & Programs:** Git/GitHub, AWS

Muhammet Saraç

COMPUTER ENGINEERING STUDENT

I am Muhammet Saraç, a Computer Engineering student at Pamukkale University. I am interested in developing functional and user-friendly digital products. As part of the Erasmus program at the University of Maribor, I worked with C++ and 3D animation and gained experience using Blender. In addition, I develop full-stack web applications using Next.js, React, and .NET. I am a responsible, adaptable person who is eager to learn. With my strong problem-solving skills and creative perspective, I enjoy being an efficient and productive member of a team.

EDUCATION

PAMUKKALE UNIVERSITY

2022-2026 GPA: 3.25

Here, I learned the fundamentals of programming and built a solid foundation in frameworks and programming languages such as SQL, React, .NET, TypeScript, Java, and C.

UNIVERSITY OF MARIBOR

February 2025 – July 2025

Here, I completed my Erasmus studies. During my Erasmus period, I worked with C++ and Blender.

PROJECTS

I am actively developing a full-stack web application using Next.js and Shadcn. To deploy this application, I am using different platforms such as Vercel, Docker, and Coolify, further improving myself in this area.
